ACADEMY OF PRAYER

MODULE 1: THE PATTERN OF PRAYER

Teachings by Leon Coetzee

Some testimonials from previous
Module 1 course participants:

"Life changing! Very insightful, and a huge blessing!"

"Any person who feels intense about his prayer life will get amazing value from this."

"I always thought I could pray, in fact I loved praying and saw no need for the course. But I could not have been more wrong! Getting biblical teaching and constant practical examples that help you understand the content is phenomenal. It has changed the way I pray and view prayer."

"Before this course, the concepts dealt with have always been explained in such a superstitious manner with no clear or satisfactory explanation. What this course does differently is using scriptures and analysing each aspect. Practical examples are used to help with the understanding of the content. The concepts are organised in such a way to make them easy to understand and remember. It is fundamental that each believer does this course and understand their position and responsibility."
