

ACADEMY OF PRAYER – MODULE 2 COURSE

MODULE 2 - BACKGROUND:

The objective of the Module 2 course is to establish a better understanding of the most important principles that give rise to more effective prayer and intercession. We will study the principles and dynamics that empower prayer as revealed to us in Scripture.

Module 2: The Principles of Prayer (10 Sessions)

(Bringing revelatory understanding about Biblical principles that will greatly help us in our prayer endeavours.)

MODULE 2 – STUDY THEMES

Lesson 1 – Understanding the Spiritual Realm

We will look at the principles that govern the spiritual realm and how the spiritual and physical realms interact with one another. Understanding these important building blocks of the two worlds and how they relate to each other will help us as believers to more effectively deal with spiritual things when we pray strategically.

Lesson 2 - Priesthood

Understanding this topic is essential in the foundational prayer responsibility God has called us to as New Testament believers. Once we discover the spiritual dynamics that are released when we fulfil our position as priests, we will comprehend the importance of growing in our availability to exercise the priestly mandate released to us from heaven.

Lesson 3 – Hearing God's Voice

In this lecture we will discover the ways that God communicates with man. We learn that our redemptive work in prayer is directly connected to our ability to hear God's voice and to obey the direction He gives. As intercessors we must exercise and practice our gifts of discerning our Master's voice.

Lesson 4 – Praying the Word

God's Word has ultimate staying power. Once we discover the wealth and power of God's own Word in prayer, we will become so much more effective in our prayer endeavours as His Word is eternal and never returns to Him without being fulfilled. God's Word is God's authority.

Lesson 5 – Understanding Spiritual Altars

We will discover the potent effects that are activated through spiritual altars. From Scripture we will discover a principle that could release God's presence into our communities. We will learn to see beyond the physicality of things so that we can identify the gates of darkness that keep our communities captive.

Lesson 6 – God's House

Discover the primary calling God has placed on the Church of Jesus Christ. Once we understand that we need to adhere to God's priorities and His way of doing things we will start experiencing the full measure of His kingdom as He has purposed and promised.

Lesson 7 – Day and Night Prayer

Discover why God is restoring this heavenly model back to earth. This lecture will reinvigorate a desire in you to participate in God's key strategies in order to see the earth filled with His glory in the last days as promised in Scripture.

Lesson 8 – The Effects of Sin – Part 1

You will develop clear understanding on the Biblical view of sin. Not only will you understand the ugliness of sin but the immense impact of defilement it brings into a community.

Lesson 9 – The Effects of Sin – Part 2

We will further discover the consequences of sin on every level of humanity and start searching for Biblical answers on how sin can be removed.

Lesson 10 – Bringing Cleansing from Sin

This lesson will teach us how to become God's instruments of cleansing. Once we are able to deal with sin and its effects we can initiate a process of restoration in our communities.
