

ACADEMY OF PRAYER – MODULE 3 COURSE

MODULE 3 - BACKGROUND:

The objective of this Module 3 course is to expose the student to topics that will contribute to the practical application of prayer. We will study the application of Biblical truth in the practical functioning of prayer so we can be relevant and effective in our communities.

Module 3: The Practice of Prayer (10 Session)

(Looking at aspects that will help us successfully participate in doing prayer and strategic prayer actions)

MODULE 3 - STUDY THEMES

Lesson 1 – Prayer Walking

We will look at prayer outside of the prayer room. It is important for us to take our prayers into the streets of our communities and to learn how to pray for our community in a practical and fresh way.

Lesson 2 – Intercessors Relating correctly to Leadership

Too often the enemy targets the relationship between the pastor and intercessors within a local congregation. We need to understand the God given purpose of this relationship and arm ourselves with Biblical truth as to how we as praying believers should function in this relationship.

Lesson 3 - Offence

We will learn to understand how God views offence and see from Scripture what destruction can be unleashed if offence is not handled in a Biblical manner. As intercessors we need to develop Christlike character so that we can be effective in our prayer endeavours.

Lesson 4 – Understanding Authority Part 1

We will come to an understanding of the Biblical principles of authority and learn how these principles need to be applied in our lives in order for us to fulfil the authority mandate that God has given us.

Lesson 5 - Understanding Authority Part 2

In this lesson we will discover the different types of authorities we have according to Scripture and learn how and when these types of authorities should be applied.

Lesson 6 – Prophetic Prayer and Godly Mandate

In this lesson we will look at the importance of acquiring Godly Mandate and adhering to this mandate in exercising our authority. We will discover the prophetic dimensions in intercession and how it attributes to the success of our prayer activities.

Lesson 7 – Seeing and Perceiving

We will be introduced to the principles of diagnostic research and spiritual mapping, as a tool for more effective and persevering intercession. We will learn to develop accurate discernment in our prayer endeavours.

Lesson 8 – Practical Prayer Group Actions Part 1

We will start looking at the process that is followed when prayer projects take place within a group setting. We will make use of a case study to explain the details after which the class will prepare for their own prayer action.

Lesson 9 - Practical Prayer Group Actions Part 2

We will further look at the process that is followed when prayer projects take place within a group setting. We will especially address the important issue of strategy development after which the class will further prepare for their own prayer action.

Lesson 10 – Taking ownership and Mobilizing Prayer

This lesson will encourage every student to take ownership of the kingdom work that needs to be done in their own community, starting with prayer mobilisation.
